attentive to YOU[™]

personal health survey for SPOUSES

FOR SPOUSES ONLY

INSTRUCTIONS

It is our pleasure to be attentive to YOU and to offer our professional services to help

safeguard your most valuable asset: your health. Please take the next 15 minutes to honestly and thoughtfully answer the questions that follow about your health, your medical history, and your health habits. Your responses to this survey will help us provide a healthier and more supportive work environment for employees and families of your spouse's employer. By learning more about your needs & interests, we can better support you and your family members. If you have any questions or concerns, please ask.

ABOUT THIS SURVEY

Attentive Health, LLC and your employer are conducting this health survey in order to attend to your personal wellbeing and support you and your family in a meaningful and personalized way. After reviewing your responses to the questions below, we will prepare a personal report for you and meet with you by phone to discuss your results and answer any questions you have. Based on your particular health concerns and personal readiness, an Attentive Health coach can also help identify a few personalized action steps you can take to improve your health in the near future. If you do not wish to meet with a health coach, your report can be made available for confidential pickup.

Please note that the health information provided to you as a result of this survey is not medical advice, nor a diagnosis, and is for your own personal use. Your participation is completely voluntary, and you should contact your personal health care provider for medical advice prior to engaging in any health-related program.

SPOUSE AUTHORIZATION FOR THE DISCLOSURE OF INFORMATION

The Genetic Information Nondiscrimination Act and the regulations under that Act require you, as a spouse, to provide prior, knowing, voluntary, written authorization before completing and submitting this survey or participate in any biometric screenings in connection with Attentive Health's wellness programs.

Therefore, please sign below to acknowledge and certify:

- I have read and understand this Attentive Health notice, including the Privacy Statement below.
- I understand that the information I provide through the survey and screenings will be disclosed only to me and to those providing health and wellness services under Attentive Health's programs.
- I have had the opportunity to consider this authorization and consult with others prior to completing the survey and undergoing any screenings in connection with Attentive Health's wellness programs.
- I voluntarily and knowingly authorize Attentive Health to receive information from the survey and screenings under their according to this notice.
- I am completing this authorization prior to completing and submitting the survey or undergoing any screenings that provide information to Attentive Health.

PRIVACY STATEMENT

The information collected and the results of your survey contain confidential medical information about you. Please rest assured that we understand the sensitive nature of this information and are concerned about maintaining your privacy. Attentive Health's programs comply with all applicable privacy and security laws, including HIPAA. We even go beyond what is required to ensure that your information is kept confidential. We protect your information in the following ways: (continued on next page)

- Your individual answers and results are never shared with your spouse's employer, even anonymously. Once per year, we will combine the information collected from all participating employees and spouses at their company and create a confidential overall group health report for the employer. For example, this report might contain the number of individuals who currently use tobacco, but it will not contain any information that would identify who uses tobacco. We provide these reports so that we, along with your spouse's employer, can develop future programs that can help employees and their families maintain and improve their health.
- We may notify your spouse's employer about whether you submitted a survey or participated in a health screening or other activities. No information about any answers or results is provided, only the fact of whether you participated. This information allows your spouse's employer to provide your spouse with the appropriate incentive, if any, for your participation and to assess how the program is reaching employees and their families.
- Our records separate information about who has completed the survey and biometric screenings from individual answers and results. Any information that we maintain in our records about your answers and results is coded and not identified to any individual. The codes are kept separately from the answers and results. The codes are retained to re-identify information when needed for a specific purpose under Attentive Health programs, in particular, to allow a disease management nurse to contact you about a health risk. This identifiable information is not provided to your spouse's employer.
- All of the information that we receive is stored using sophisticated technology for security and confidentiality.

QUESTIONS?

If you have any questions about this notice, or Attentive Health's wellness program, we are happy to help!
